Customer Success Manager | SaaS Loyalty & Payments | Onboarding, Retention & Data-Driven Growth

SUMMARY

Customer Success Manager at Como (a Global Payments company) managing F&B and retail merchants across the UK, UAE, US, Canada and Australia. Combines hands-on loyalty platform configuration and POS/API troubleshooting with a performance marketing background (50+ campaigns, ~$7K/month ad spend, ~86% ROI) to turn customer data into retention and growth plans.

WORK EXPERIENCE

Customer Success Manager March 2026 - Present

Como, a Global Payments company | Dubai, UAE

- Manage a portfolio of F&B merchants (QSR, fast-casual, casual dining and banquet venues) across the UK, US, Canada, UAE and Australia, from single-site operators to multi-unit chains of up to 13 locations.
- Run end-to-end onboarding: POS integration checks, legacy member migrations (merging 3 source files by phone and email), Stripe-powered e-gift cards, WiFi sign-up pages, branded app store submissions, and POS and Como Hub training.
- Designed RFM-based retention campaigns, e.g. a visit-streak reward for top 'Champion' members using auto-tagging, visit wallets and monthly resets, and a mission-based family stickerbook campaign with printed promo codes.
- Delivered a growth review (deck, report, action plan) for a 13-location chain, pinpointing loyalty penetration and member activation gaps; reconciled capture rates for an 8-store UK merchant, showing 37% of sales ran through delivery apps and direct-channel capture ranged 13-42% by store.
- Tested loyalty API flows (submitPurchase, getBenefits, promo code redemption) in Postman across Toast, Oracle Micros Simphony and European POS systems; isolated reproducible daily-cap and discount-targeting bugs and escalated with repro steps.
- Built a Python and local-AI pipeline that turns 800+ client emails into a follow-up tracker; wrote a multi-phase onboarding playbook for new CSMs; adapted US SMS (10DLC) onboarding for Canadian merchants under CASL.

Marketing Manager & Analyst September 2025 - Present

Enjab Medical Centre | Dubai, UAE

- Led 35+ B2B & B2C healthcare campaigns on Google and Meta, managing ~$7K average monthly ad spend and generating ~$13K attributable monthly revenue (~86% ROI) through better conversion paths and audience segmentation.
- Reallocated budget toward top performers to sustain an 8.6-8.9% average CTR; automated lead capture and follow-ups in Zoho CRM.
- Delivered on-page and technical SEO improvements, lifting search ranking by 105 positions; designed and launched 3 websites (WordPress & React), increasing impressions by 157%.

Marketing Specialist January 2025 - September 2025

Black Field Properties

- Generated and qualified 40+ B2B partnership leads across real estate and fintech, contributing to $250K+ in signed contracts within 6 months.
- Managed 40+ client accounts end to end (outreach, discovery, negotiation, retention) in Odoo CRM, maintaining a 60% repeat business rate.
- Delivered 10+ executive presentations to C-suite stakeholders, cutting average contract approval time from 6 to 3 weeks.

Design & Project Management Intern January 2021 - July 2022

Waritex Egypt

- Coordinated engineering, regulatory and clinical stakeholders during COVID-19 emergency ventilator production; managed testing schedules, ISO and Ministry of Health compliance, and supplier tracking, reducing production delays by 15%.
- Wrote bilingual (English/Arabic) technical manuals and training materials for hospital staff, supporting successful adoption.
